

AED Lease

Many companies opt to lease an Automated External Defibrillator (AED) due to their financial structure, or the need for a hassle-free AED program.

LifeSafe includes everything that you need to make sure your AED program is a success, that it meets all compliance issues, and that the AED will be ready when needed.

This is a 24-month program. At the end of the 2-year term, you have the option to renew the lease, or purchase the equipment outright. We offer service programs for client-owned equipment at very competitive rates.

The program includes:

- Medical Director to oversee the program
- AED prescription as required in most states by the FDA
- Registration and Compliance with AED laws at the federal, state & local levels
- CPR and AED certification training for up to 10 people
- Onsite bi-annual inspection of your AED program by our service technician
- Free replacement of parts
- Program Management Data tracks the AED serial number, expiration of pads and batteries, exact location of the AED, and all actions taken with the AED
- If the unit has an upgrade or is recalled, LifeSafe will update or replace the unit

If the AED is deployed we supply:

- ✓ Post-use emergency data review and filing
- ✓ Physician review of event data with follow-up report and recommendations
- ✓ After an event, a loaner AED is supplied by LifeSafe until the unit is returned to service
- ✓ Incident Reports
- ✓ Stress debriefing material

Contact us for pricing today at 888-767-0050

With the lease we supply:

- The AED in a case, with battery & electrodes
- Semi-annual inspections
- Medical Direction with Prescription
- Biennial CPR/AED training for 10 students

For an additional minimal fee, we will include our Cardio-Trauma Bag and:

- Emergency Oxygen
- First Aid Supplies
- AED Prep Kit
- Clean-up Kit
